HONMA XP-1 - FW UT 1

XP-1 FW/UT

	FW			UT		
Number	**3W**	**5W**	**7W**	**19**	**22**	**25**
Length	**43.0**	**42.5**	**42.0**	**40.5**	**40.0**	**39.5**
Total Weight	**300**	**304**	**308**	**321**	**325**	**329**

Number	3W	5W	7W	U19	U22	U25
Head material	Body &Face : AM355+ Crown carbon	Body : SUS630 Face : High strength custom steel455		Body : SUS630 Face : High strength custom steel 455		
manufacturing process	Body Face : Monobloc Casting	Body : Casting Face : Rolling		Body : Casting Face : Rolling		
Loft (deg.)	15°	18°	21°	19°	22°	25°
Lie angle (deg.)	58.0	58.5	59.0	59.0	59.0	59.0
Head volume(㎖)	188	173	159	136	136	136

Shaft							
Length(inch)		43.0	42.5	42.0	40.5	40.0	39.5
Swing Weight	R	D-1	D-1	D-1	D-1	D-1	D-1
	SR	D-1	D-1	D-1	D-1	D-1	D-1
	S	D-1.5	D-1.5	D-1.5	D-1.5	D-1.5	D-1.5
Total Weight	R	303	307	311	327	331	335
	SR	305	309	313	329	333	337
	S	307	311	315	331	335	339

Grip	Size	HONMA Rubber A61 BK/WH
	Weight	44g

HONMA XP-1 - FW UT 2

XP-1 FW Structure

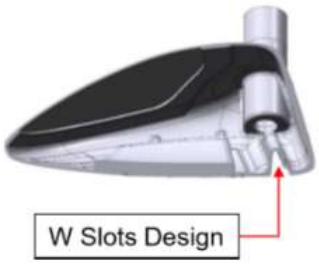
Deep and Low CG design for more forgiveness and more distance.

Deep & Low CG design, Fast initial velocity, High launch angle and Low spin

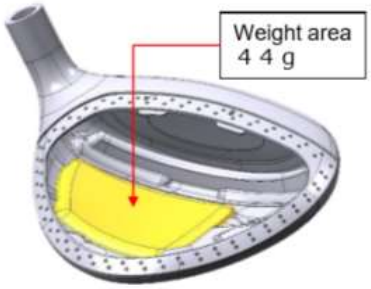
Low CG ↓ Carbon Crown

High launch angle ↓ W Slots

Deep & Low CG, High launch angle and low spin ↓ High Endurance Stainless AM355 One body casting



Better deflection
↓
Better Repulsion



Thin design of face rounding
↓
Low spin and Fast Velocity

XP-1 UT Structure

You can take close aim at the pin with high trajectory

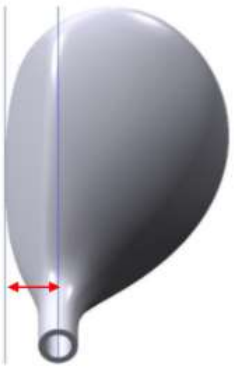
FP and CG design

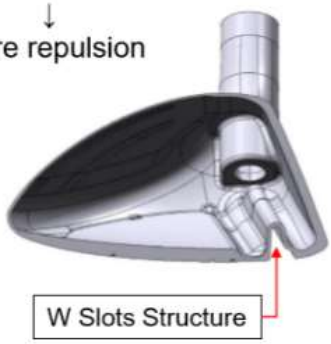
*FP = Face Progression

- More FP set-up
- 42g weight on proper location
↓
Forgiving / High Trajectory

W Slots

More deflection effect
↓
More repulsion

High endurance 455 steel face




Thin design of 1.95㎜
↓
High Repulsion
