# ***BERES PUTTER***

***A new concept putter that combines more than 60 years of history with traditional craftsmanship and performance functions!***

- ***Concept*** : ***Introducing a putter that has achieved innovation as the BERES series of the super premium line!***  
***Sakata's master craftsman are particular about details and thoroughly pursue not only performance but also beautiful style***  
***The three alignments create a confidence when addressing and a sense of stability when stroking.***
- ***Target*** : ***Golfers who want a stable stroke***  
***Golfers who are not good at long putts and short putts***  
***Golfers who is particular about not only the performance but also the appearance design***
- ***Competitor*** : ***Titlist Scotty Cameron, Odyssey TOULON, PING VALUT, BETTINARDI***

# **MODEL : BERES *P303***

*High MOI putter with CNC milled head that pursues feel, accuracy and beauty of finish realizes stable putting*

- **Head Material** : *Soft stainless steel SUS630*
- **Head Manufacturing** : *Forged CNC milled/ Double milling face*
- **Finish** : *Chrome plated + Black IP finish*  
*Gold plated finish*
- **Shaft** : *STEEL / ARMQR 3S / ARMARQ 4S / ARMQR 5S*
- **Length** : *34 inch*
- **Features** : *The head that moves automatically has a hard-to-change face surface, and the head shape that distributes weight to the toe and heel has high MOI, and it is possible to produce stable rolling even if a miss hit occurs*

*Three alignments make it easy to address the target, allowing you to stroke with confidence*

# MODEL : BERES **P303**

Body : SUS303

Face : Double Milling

Aluminum sole adopted

Sole: AL6061

	Spec
Real Loft	4.5°
Loft	2.0°
Lie Angle	70.0°
Weight (steel)	365g

**Gold**

# MODEL : BERES **P308**

*High MOI putter with CNC milled head that pursues feel, accuracy and beauty of finish realizes stable putting*

- **Head Material** : *Soft stainless steel SUS630*
- **Head Manufacturing** : *Forged CNC milled*
- **Finish** : *Chrome plated + Black IP finish  
Gold plated finish*
- **Shaft** : *STEEL / ARMRQ 3S / ARMARQ 4S / ARMRQ 5S*
- **Length** : *34 inch*
- **Features** : *The unique T-shape allows linear addressing and stroke without hesitation with respect to the target. In addition, by designing the high CG, it has a shape that makes it easy to create the forward rotation of the ball required for putting.*

*Triple & parallel alignments make it easy to address the target, allowing you to stroke with confidence*

# MODEL : BERES *P308*

By making the loft 1.5° stronger with the deep CG design, optimal launch angle and forward rotation are produced and the loft rolls smoothly on the target line.

**13% improvement in rolling compared to the previous model**

	Spec
Real Loft	4.5°
Loft	2.5°
