THE FADE BERMUDAS & TROUSER (garment dyed, stretch, slim fit, 5 pockets)

GARMENT DYE
As opposed to a yarn dye, which takes place prior to the weaving of yarn, garment dye is a dyeing process performed on finished garments.

Garment dyed clothes are also pre-shrunk in the dyeing process, and tend to have a softer, cuddlier feel to them.

The large stretch element in the fabric ensure optimal freedom of movement and an excellent wearing comfort.

THE ANITA & ALEXIA KNITWEAR (super soft, pima cotton)

GOLFINO logo embroidered on the chest in matching colour.

Pima cotton is one of the most premium cotton qualities. It is exceptionally soft and supple and therefore extremely comfortable to wear. Pima cotton has longer filaments than conventional cotton and it is more efficient in absorbing moisture. It is also easy to wash or dry-clean and very hard-wearing.

GOLFINO logo embroidered on the hem in matching colour.

THE BARBARA, BIBIANA & BRIGITTE WAISTCOATS & JACKET

With the cold protection function your body warmth is optimal stored. You are protecting through excellent heat insulation against the cold and simultaneously moisture is transported outwards. This allows you even on cold days to enjoy your favorite sport optimal.

These synthetic fibres are finer than all natural fibres. Microfibres are not only light and silky soft, but also provide good weather protection. Depending on the delicacy of the fibres, fabric texture and finishing, they are water resistant and windproof without losing their breathability.
